Find the spirit of your ancestors with Adventure Archery Park

Archery is an ancient skill that our ancestors have used for millennia to survive. In a wonderful forest, at the foot of the crystal clear Lake Bagattoli, you will find a well-equipped refreshment point and the archery park with two archery trails for you, your partner, your friends and your families. For the little ones it will be fun to discover that you can shoot real arrows even at the targets in motion; for the older ones it will be priceless to reconnect to their own instinct and to the spirit of nature, the forest, the silence and excitement that comes before the shooting of an arrow. Accompanied by the guides of the Adventure Archery Park, you will return to your inner self and take home a wonderful adventure to tell to your "tribe".
